VistaWiz, Inc. Announces Agreement with Primary Network

St. Louis, Missouri – February 6, 2004 – VistaWiz, Inc., a provider of comprehensive security solutions and business applications to small and medium sized enterprises, today announced it has reached an agreement with Primary Network where Primary Network will resell the VistaWiz service to its business customers.

“We are pleased to have reached an agreement with Primary Network for them to become an important reseller of the VistaWiz services solution”, stated Bill Reeves, President and CEO of VistaWiz. “Having reached this agreement with such a sophisticated partner further validates that VistaWiz has a leading product and service that answers the security and business requirements of small to medium sized enterprises”.

“Primary Networks is in the business of providing world class solutions to our customers. We have extensively examined and tested the GenieBiz Edge Server™ and associated service and found it to be the most complete security solution available on the market today that meets the needs of small to medium sized enterprises,” stated Trey Goede, VP of Sales for Primary Network. “We are looking forward to deploying the VistaWiz managed service solution to our customers and anticipate a long-term relationship with VistaWiz,” Goede continued.

About Primary Network

Primary Network currently offers Internet access (dial-up, ISDN, T1, DSL, e-Port), web hosting (shared hosting, server co-location, and dedicated server) and Internet marketing services in the St. Louis and Kansas City metropolitan areas. To provide these services, Primary Network is

owned by River City Internet Group, which made up of 4 wholly owned subsidiaries, Primary Network Internet Access, Hostirian, IntraISP, and PrimaryClick. With over 5,000 business customers in the St. Louis and Kansas City areas, Primary Network is one of the largest business Internet Service Providers in Missouri.

About VistaWiz, Inc.

Located in St. Louis, Missouri, VistaWiz Inc., is a Managed Service Provider of comprehensive security solutions and business applications to small and medium sized enterprises. VistaWiz has developed and deployed a unique solution called the *GenieBiz*® *Edge Server*. This is a small piece of equipment that is installed at a business location and resides in between a company's local area network and their internet connection. The VistaWiz *GenieBiz*® *Edge Server* is integrated with and continually communicates back to our *Service Management Center*. The edge server and service management center combination allows VistaWiz to remotely manage and protect a business's network and all of its critical data while providing on-demand services and just in time updates to applications.
